POST SECONDARY EDUCATION

Bachelor of Education in Business Management **August 2024**
University of Cape Coast-Ghana
Final Year Project: Examining Business Management Teacher's Classroom Management Styles and Students' Engagement in Cape Coast Metropolis.

TECHNICAL & ADMINISTRATIVE PROJECTS

First Year Student Mentorship and Peer Advising Matching Platform **October 2026**
Creator and Lead Developer (In Progress)

- Designed and deployed a digital matching system that pairs first year students with senior peer mentors based on academic majors and career goals to ease their transition on campus.
- Built role-based dashboard and tracking tools that help student affairs offices and academic advisors monitor students' adjustment and identify students who needs academic or personal support.
- Automated student onboarding and feedback process using Supabase, reducing manual paperwork for university counselors and then ensuring regular follow-ups for new students.
- Integrated student development frameworks into the platform interface to ensure peer advising sessions focus on practical coping strategies, time management and academic awareness.

Student Affairs Program Assessment and Feedback Survey Pipeline. **October 2026**
Architect and Designer.
Tech Stack: Google Forms, Google Sheet, Data Studio and Google Apps Script

- Designed an automated program assessment system using Google Forms, Google sheets and data studio to easily collect and analyze student feedback after campus workshops and orientation events.
- Built a live dashboard to track student satisfaction scores and learning outcome in real time, helping the students affairs team evaluate campus events progress.
- Automated the notification process to reduce paperwork and help administrators review feedback faster.

Automated Students Service Requests Workflow **August 2026**
Independent Project | Zapier, Google Sheets, Google App Script and Automated Mail Workflow

- Built an automated request form with Zapier using a public link to quickly gather student requests and stop any papers or messages from getting lost.
- Set all requests to drop straight into a google sheet so it is easy to sort and share them automatically with the right department.
- Added an automated email reply to quickly let students know their request was received through the link.

Students Performance Tracking Application **February 2026**
Independent Developer (In Progress)

- Building a web application to record students' continuous assessment and term results, matching the Ghana Education Service (GES) grading standard.
- Setting up a secure login using Supabase so teachers, parents and students can open their own portals safely.
- Designed a summary page that automatically adds up mark, shows high scores and low scores, and then clearly points out where a student is struggling so teachers can help them improve.

RESEARCH EXPERIENCE

Undergraduate Research Work - University of Cape Coast **March 2024 - July 2024**
Examining Business Management Teachers' Classroom Management Styles & Students' Engagement in Cape Coast Metropolis.

- Helped draft and structure the questions used to gather practical insights and feedback from respondents.
- Moved around to selected Senior High Schools during fieldwork to share out questionnaires and gather feedback from Business Management Teachers and Students.
- Analyzed questionnaire data using SPSS to check how different teaching and classroom management styles affect student participation.
- Processed survey responses through SPSS to find key trends regarding student involvement during lessons.
- Discussed the findings to figure out the best practical ways teachers can make business management lessons more effective.

***U-Splash Mineral Water Company* | Organizational Performance Review.** **July 2023 - Aug. 2023**
University of Cape Coast - Department of Marketing

- Joined a group field study to check how U-Splash Mineral Water Company in Cape Coast (Ghana) handled their sales and daily processes.

- Assisted the group to easily spot where the business was struggling by building Charts in Tableau to track sales trends with the company sales records organized in Excel.
- Helped gather the findings and suggested practical ways management can boost their sales and overall performance.

PROFESSIONAL EXPERIENCE

Growth Marketing Lead - ***Oye Ride (Logistics and Mobility)*** **April 2026 - Present**

- Tracks daily user sign-ups and customer feedback to see what people like about the ride service and areas to improve.
- Teams up with the riders on the ground to push out simple promotions and boost daily ride bookings around town.

Administrative Analyst - Pensions Computation Unit **Oct 2024 – Jan 2026**
Controller & Accountant-General's Department – Accra

- Calculated 24+ complex pension benefits and managed a secure digital system for 30+ vital records from government departments including Ghana Fire Service, Ghana Immigration Service, Ghana Police Service and Ghana Audit Service.
- Checked and sorted pension documents to make sure retiree calculations were done correctly without missing details.
- Followed up with various offices to clear pending files quickly so units and departments could receive their documents on time.

TEACHING EXPERIENCE

Applied Teaching Practicum - Ngleshie Amanfro Senior High **Jan. 2024 – April 2024**
Course: Business Management

- Taught Business Management lessons in class and used simple group discussions to keep the students active and engaging.
- Organized simple class quizzes and tracked student scores to see who needed extra help with the subject.

Academic Affairs Practical Experience (On Campus) - University of Cape Coast **May 2023 - Aug 2023**
Course: EMT390A-Micro Teaching I

- Delivered mock lessons in front of fellow student-teachers and lecturers to demonstrate proper classroom delivery method.
- Practiced key classroom control and management techniques to maintain order and keep students focused during lessons.
- Drafted detailed lesson notes and Teacher-Resource Materials (TRM) as part of practical teaching requirements which became necessary for the following semester during an Off-Campus teaching practice.

ICT Tutor **March 2017 – Feb. 2019**
Omega Schools Franchise Ltd – Ghana

- Taught basic computer skills and introduced young pupils to practice ICT tools using the school computer laboratory.
- Guided students step-by-step through typing exercises, basic software navigation and computer handling.
- Monitored student progress during computer practical sessions and helped those who found it difficult to catch up.

HONORS & RECOGNITION

Outstanding Contributor Recognition & Articulation Award **October 2025**
Controller & Accountant-General's department | Ghana National Association of Teachers (GNAT) hall - Accra

- Selected from a peer group to present a comprehensive performance review and recognized for effectively communicating individual contribution, workshop enhancement and daily operational impact.

TECHNICAL SKILLS & COMPETENCIES

- Data and Analysis tools: Power BI, SQL(MySQL), Tableau and Advanced Excel.
- Workflow and Process Improvement: Zapier and Make.com
- Research and Data Gathering: Qualtrics, Zotero, Survey Design and Field Data Collection.
- Web and Digital Tools: React, TypeScript, Tailwind CSS, VS Code, GitHub, Vercel and Supabase.
- Project and Team Tasks: Asana, Trello, Google Sheets and Microsoft 365 Suite.

WORKSHOP

Summer Training-Omega Schools **August 2017**

- Learned the practical ways to plan and adjust daily lessons so that every student can understand and follow along easily.
- Picked up practical skills on how to manage crowded classrooms so that teaching goes on smoothly without distraction.
- Gained better ways to assess children through class exercises to track who is catching up and who needs extra attention.

COMMUNITY ENGAGEMENT

Outreach Volunteer-Youth Pioneering a Future Africa (YPF AFRICA) **2025 Present**

- Supports community outreach activities focused on engaging young people and promoting youth participation in community initiatives.
